

Salute to Volunteers

WEST BOCA MEDICAL CENTER

Helen Deliyanis

Helping others is at the heart of Helen Deliyanis; she's been volunteering since she can remember. 14 years ago she moved to Florida and began her service with West Boca Medical Center in case management. She has provided over 2200 hours of her time to the hospital. Deliyanis enjoys volunteering because she is able to touch the lives of others and utilize her free time in a positive way. Deliyanis also volunteers within her church and community. She motivates others to volunteer as well, spreading the message that volunteering should be something that is fun to do, but also be taken seriously as hard work. West Boca Medical Center would like to thank Helen Deliyanis for the countless hours of hard work she has brought to the hospital. She truly makes a difference.
